SQL

Python

PROFESSIONAL EXPERIENCE

Coding Virtual Experience

Accenture

December 2021

Over the period there, I got hands-on experience on **Spring Boot**, **Gradle** and **Jenkins**. I also got to learn how a SDE team works on a project.

PERSONAL PROJECTS

Stook

Student's Resource App

March 2021 – April 2021

Android application to provide updates to students based on department and year. Backend is created using **Google's Firebase** involving **Google Authentication**, **Cloud Firestore** as DB, and **FCM for notification implementation**.

Open Mouse

AI Virtual Mouse

October 2021

Python software which uses **autopy**, **openCV** and **MediaPipe** as its main package. It tracks down the hand movement and based upon them user can navigate cursor and do operations.

CLIENT PROJECT

MyTravon

<https://mytravon.com/>

August 2021 – September 2021

Created a travel website using **WordPress**. Used **WooCommerce** for the e-commerce solution and added some UI changes in the website which makes it overall appealing for the user.
